Certified Quality

Core Values

Fruits & Vegetables

THABICO Food Industry is proud to be the first integrated company to bring the value of Vietnamese fruits and vegetables to the world by investing in advanced processing technologies such as IQF (Individual Quick Freezing), puree extraction, concentrate, and freeze drying.

We have been working with the world-class Food Processing Equipment from Tetrapak, AlfaLaval, Tropical Fruit Machinery, Mycom, Guntner and Weber Cooling, among others to serve our global customers with the highest quality.

We are becoming the largest fruits and vegetables processor in Vietnam with the annual capacity of 60,000 mts per year in IQF, 35,000 mts per year in Puree and Concentrate, and 4,500 mts per year in Freeze Dried Products.

We emphasize the importance of enhancing everyday value with the community as a whole in order to keep the Vietnam's Agriculture growing sustainably.

Coconut Processing

THABICO TIEN GIANG Food Industry is located in the Mekong Delta, the most fertilized delta in the Asian region, where there are more than 700,000 hectares of coconut plantation. By using the most advanced technology, we are able to process coconuts while keeping its freshness and nutrients.

We process 300,000 coconuts on daily average into water, milk, cream, concentrate and desiccated products. The total capacity is as follows:

- Coconut Water: 30,000 tons/year
- Coconut Milk/Cream: 20,000 tons/year
- Desiccated Coconut: 5,000 tons/year
- Coconut Water Concentrate: 7,000 tons/year

We have been serving both B2B and B2C customers with bulk and consumer packaging.

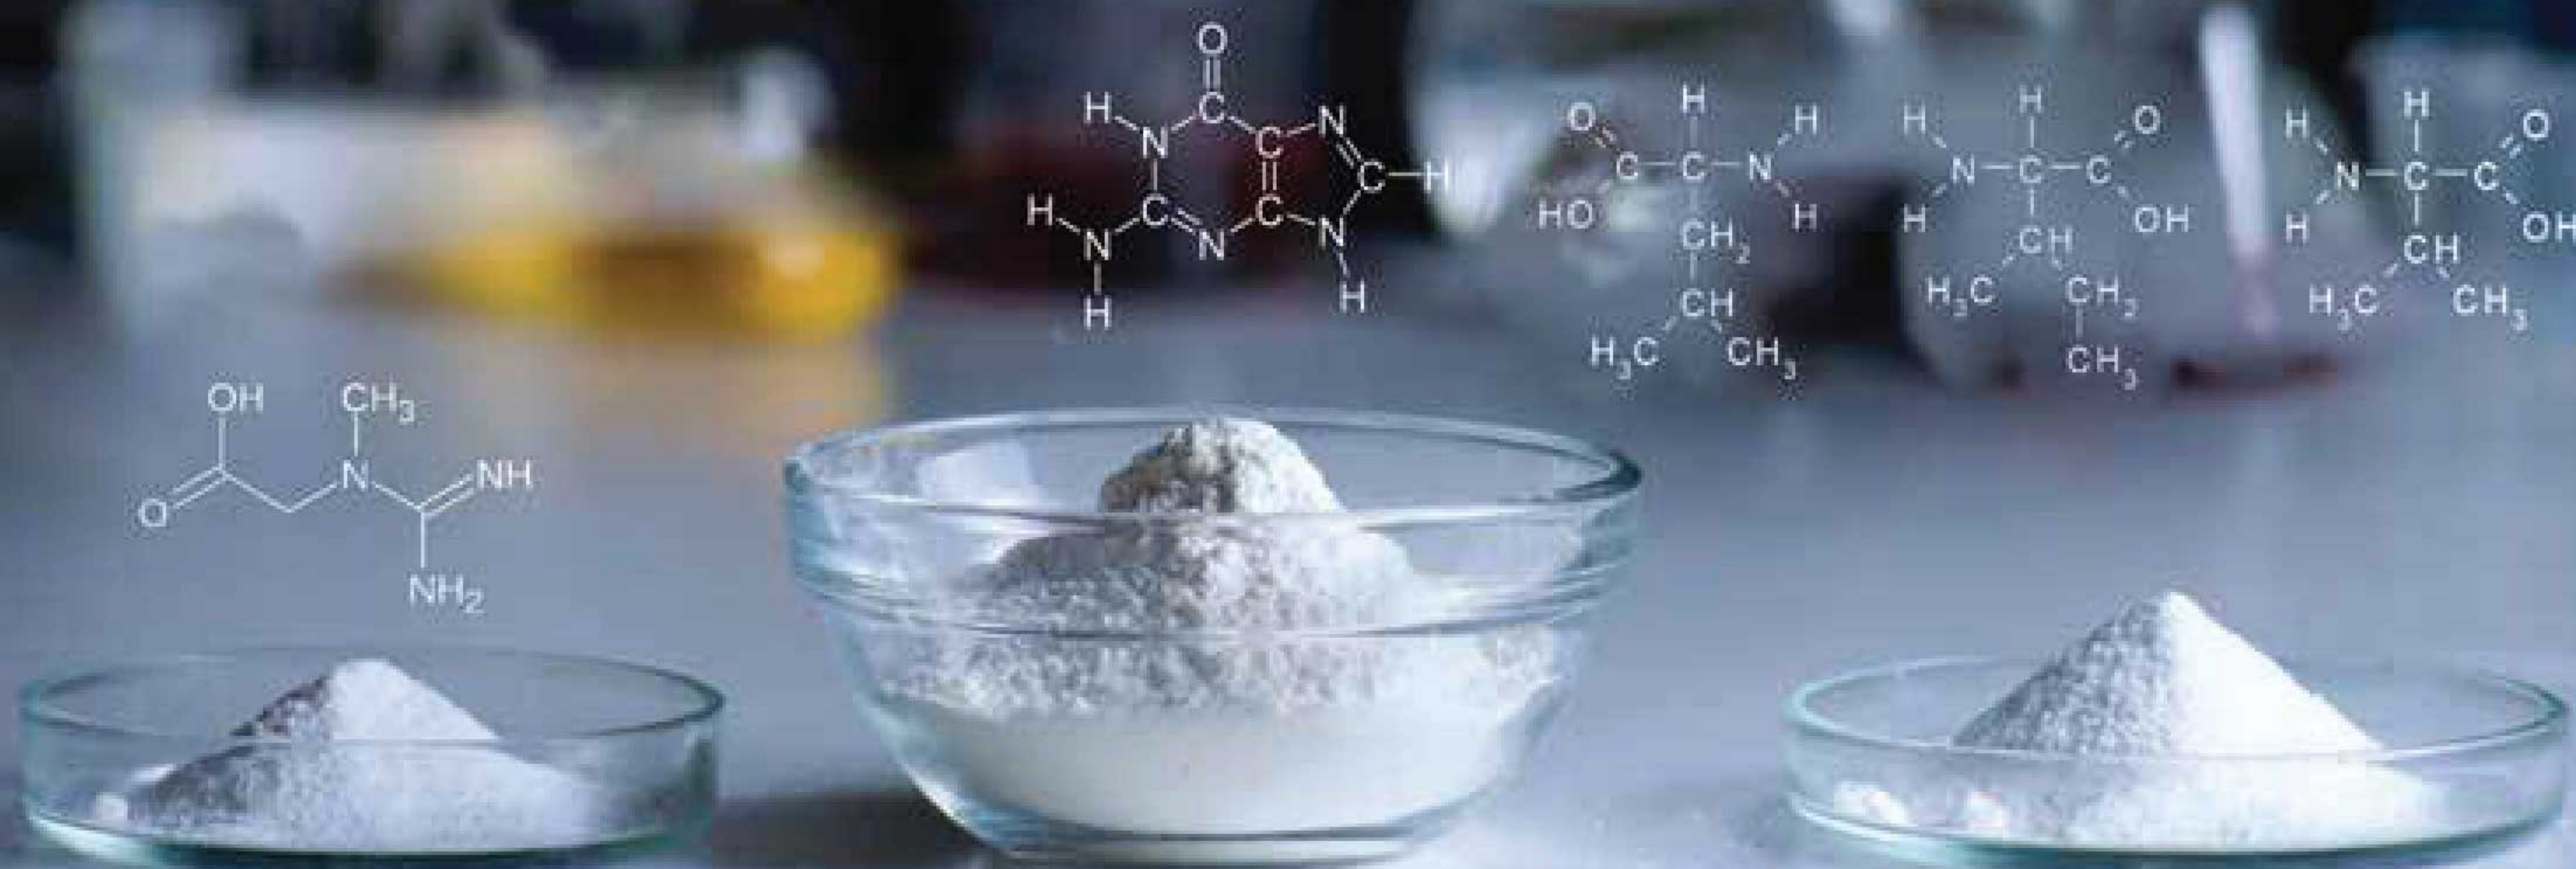

Ingredients

Founded in 2000, THANH BINH Manufacturing and Trading Company (THABICO) is a leading company specializing in Food Ingredients, Pharmaceutical Ingredients, Cosmetics & Personal Care, Industrial Chemicals, Animal Feed, Food Packaging, Agricultural Products, and more. We serve various sectors in Vietnam, Malaysia, Myanmar, Laos, Cambodia, and beyond.

THABICO blends Service, Technology, Creativity, and Expertise with a Human Element to passionately innovate solutions essential for helping you differentiate and grow. Our core focus is on revolutionizing your products.

Our state-of-the-art warehouse spans up to 20,000 square meters, accommodating a large volume of materials while maintaining optimal storage conditions that meet stringent food safety, hygiene, and environmental standards. We operate an in-house laboratory, fully equipped and sanitized, enabling us to conduct various lab-scale tests to meet the diverse requirements of our customers.

Our organization is made up of a diverse group of dynamic and experienced professionals. The teams consist of professional, self-driven and result-oriented individuals.

Professional Customer service team is devoted and always available to assist the customers in a timely manner.

Dynamic Logistics team coordinates skillfully with customers' requirements for on-time delivery while ensuring product quality.

Cereal

Established in 2008, Pacific Food Technology Joint Stock Company (PFT) has emerged as a pioneer in manufacturing cereal products with high nutritional value. We have become a trusted partner in the food ingredient markets, not only in Vietnam but also in neighboring countries.

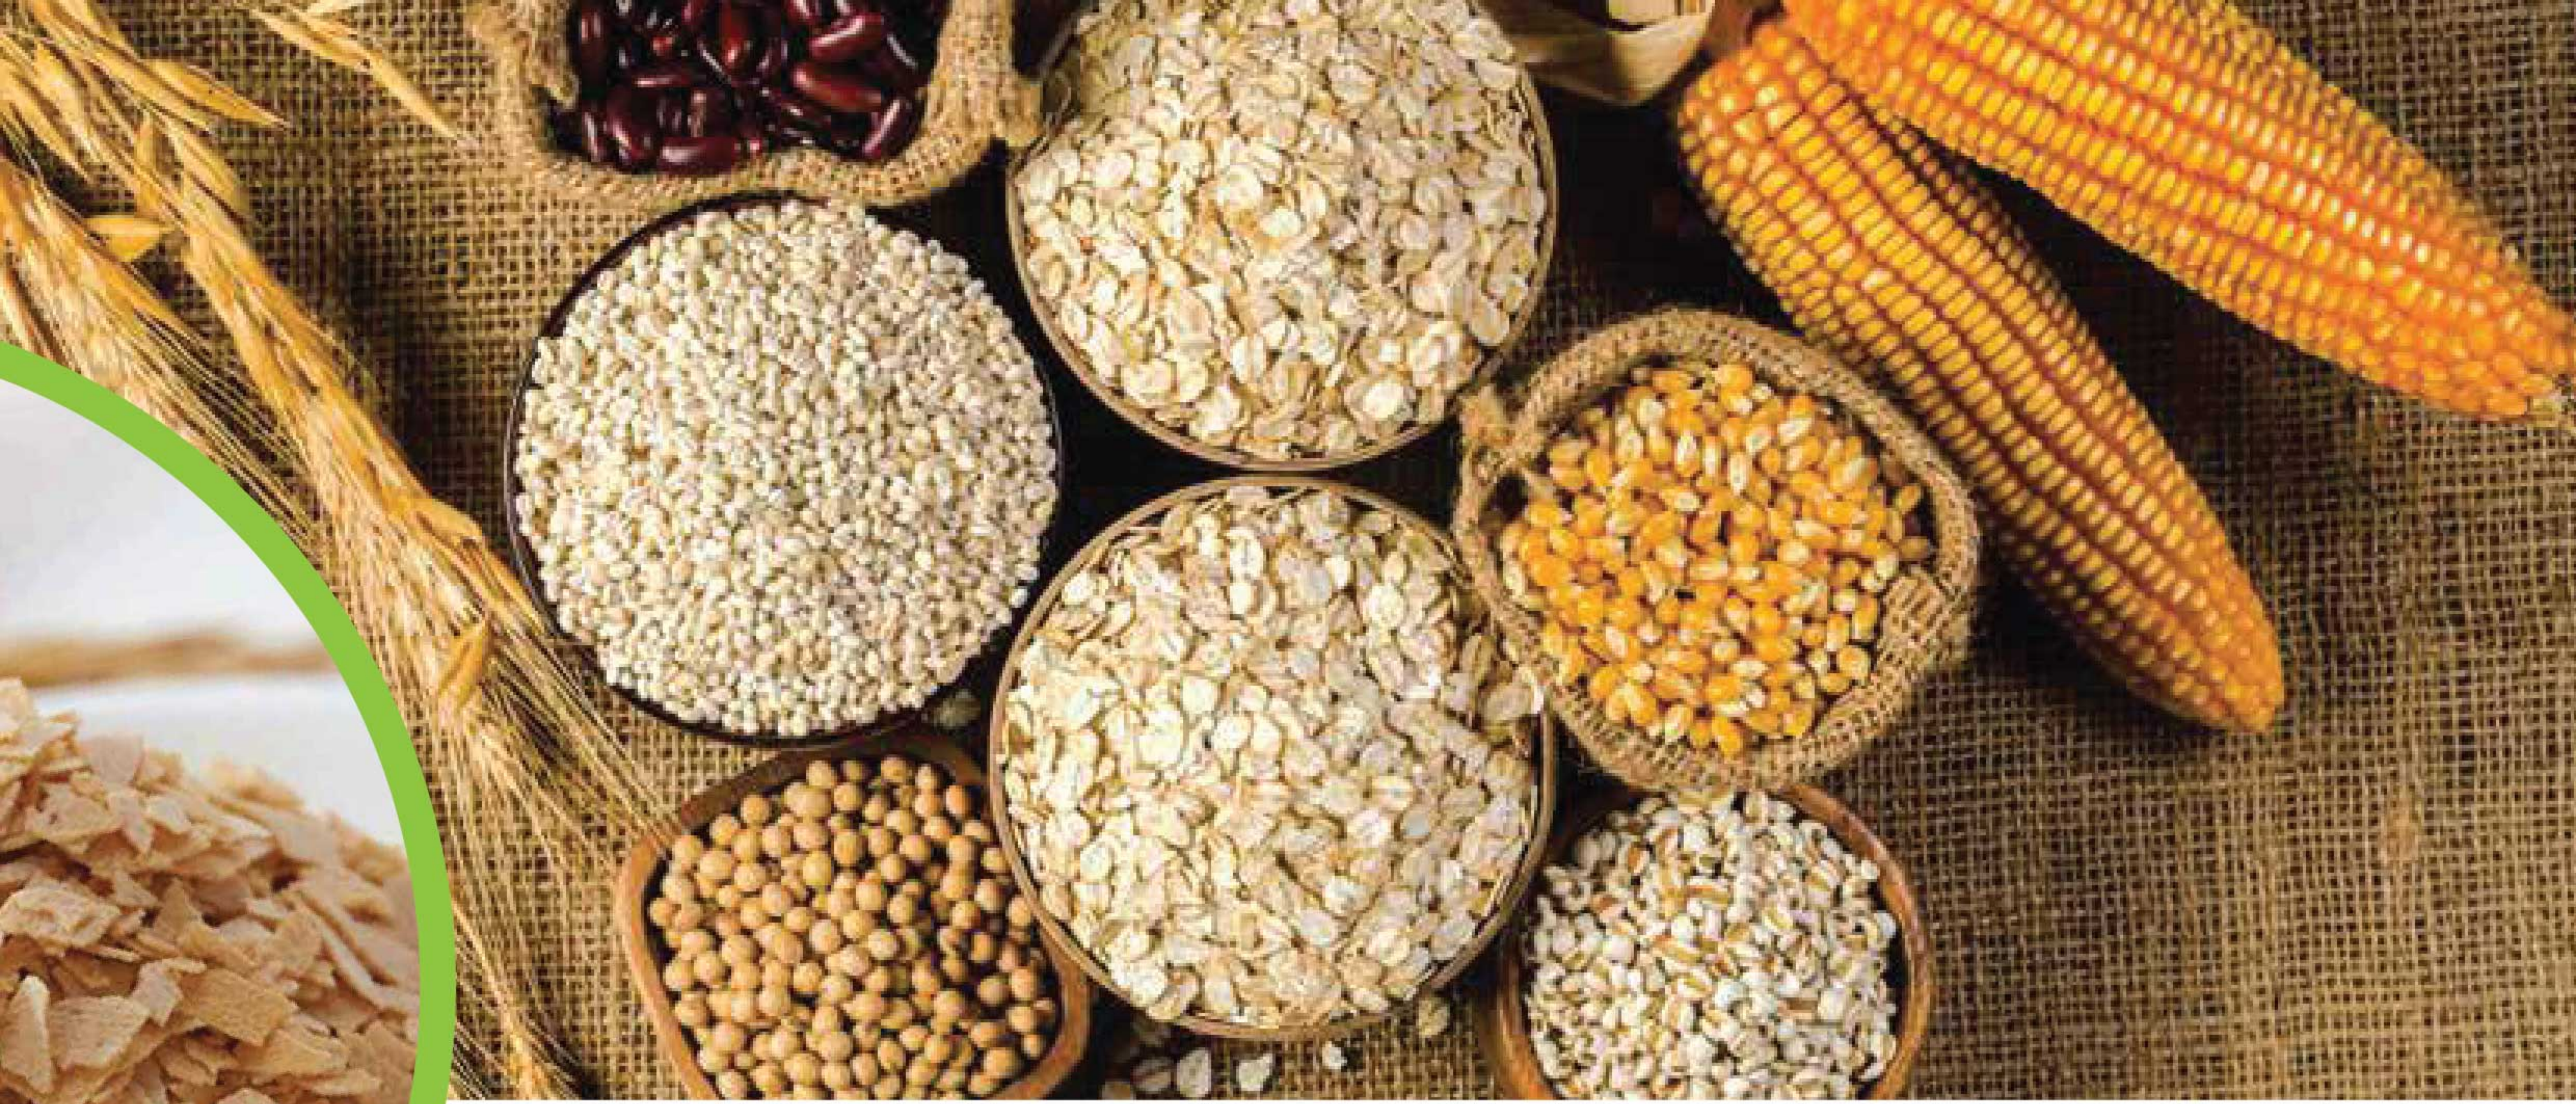

“WE DO YOUR TASTE”

Our tagline, 'We Do Your Taste,' reflects our commitment to listening closely to customers and fulfilling their expectations. At PFT, our customers' success is our greatest happiness.

We place a strong emphasis on Quality, Hygiene, and Food Safety, strictly adhering to international standards such as ISO 9007:2008, HALAL, KOSHER, and other relevant certifications.

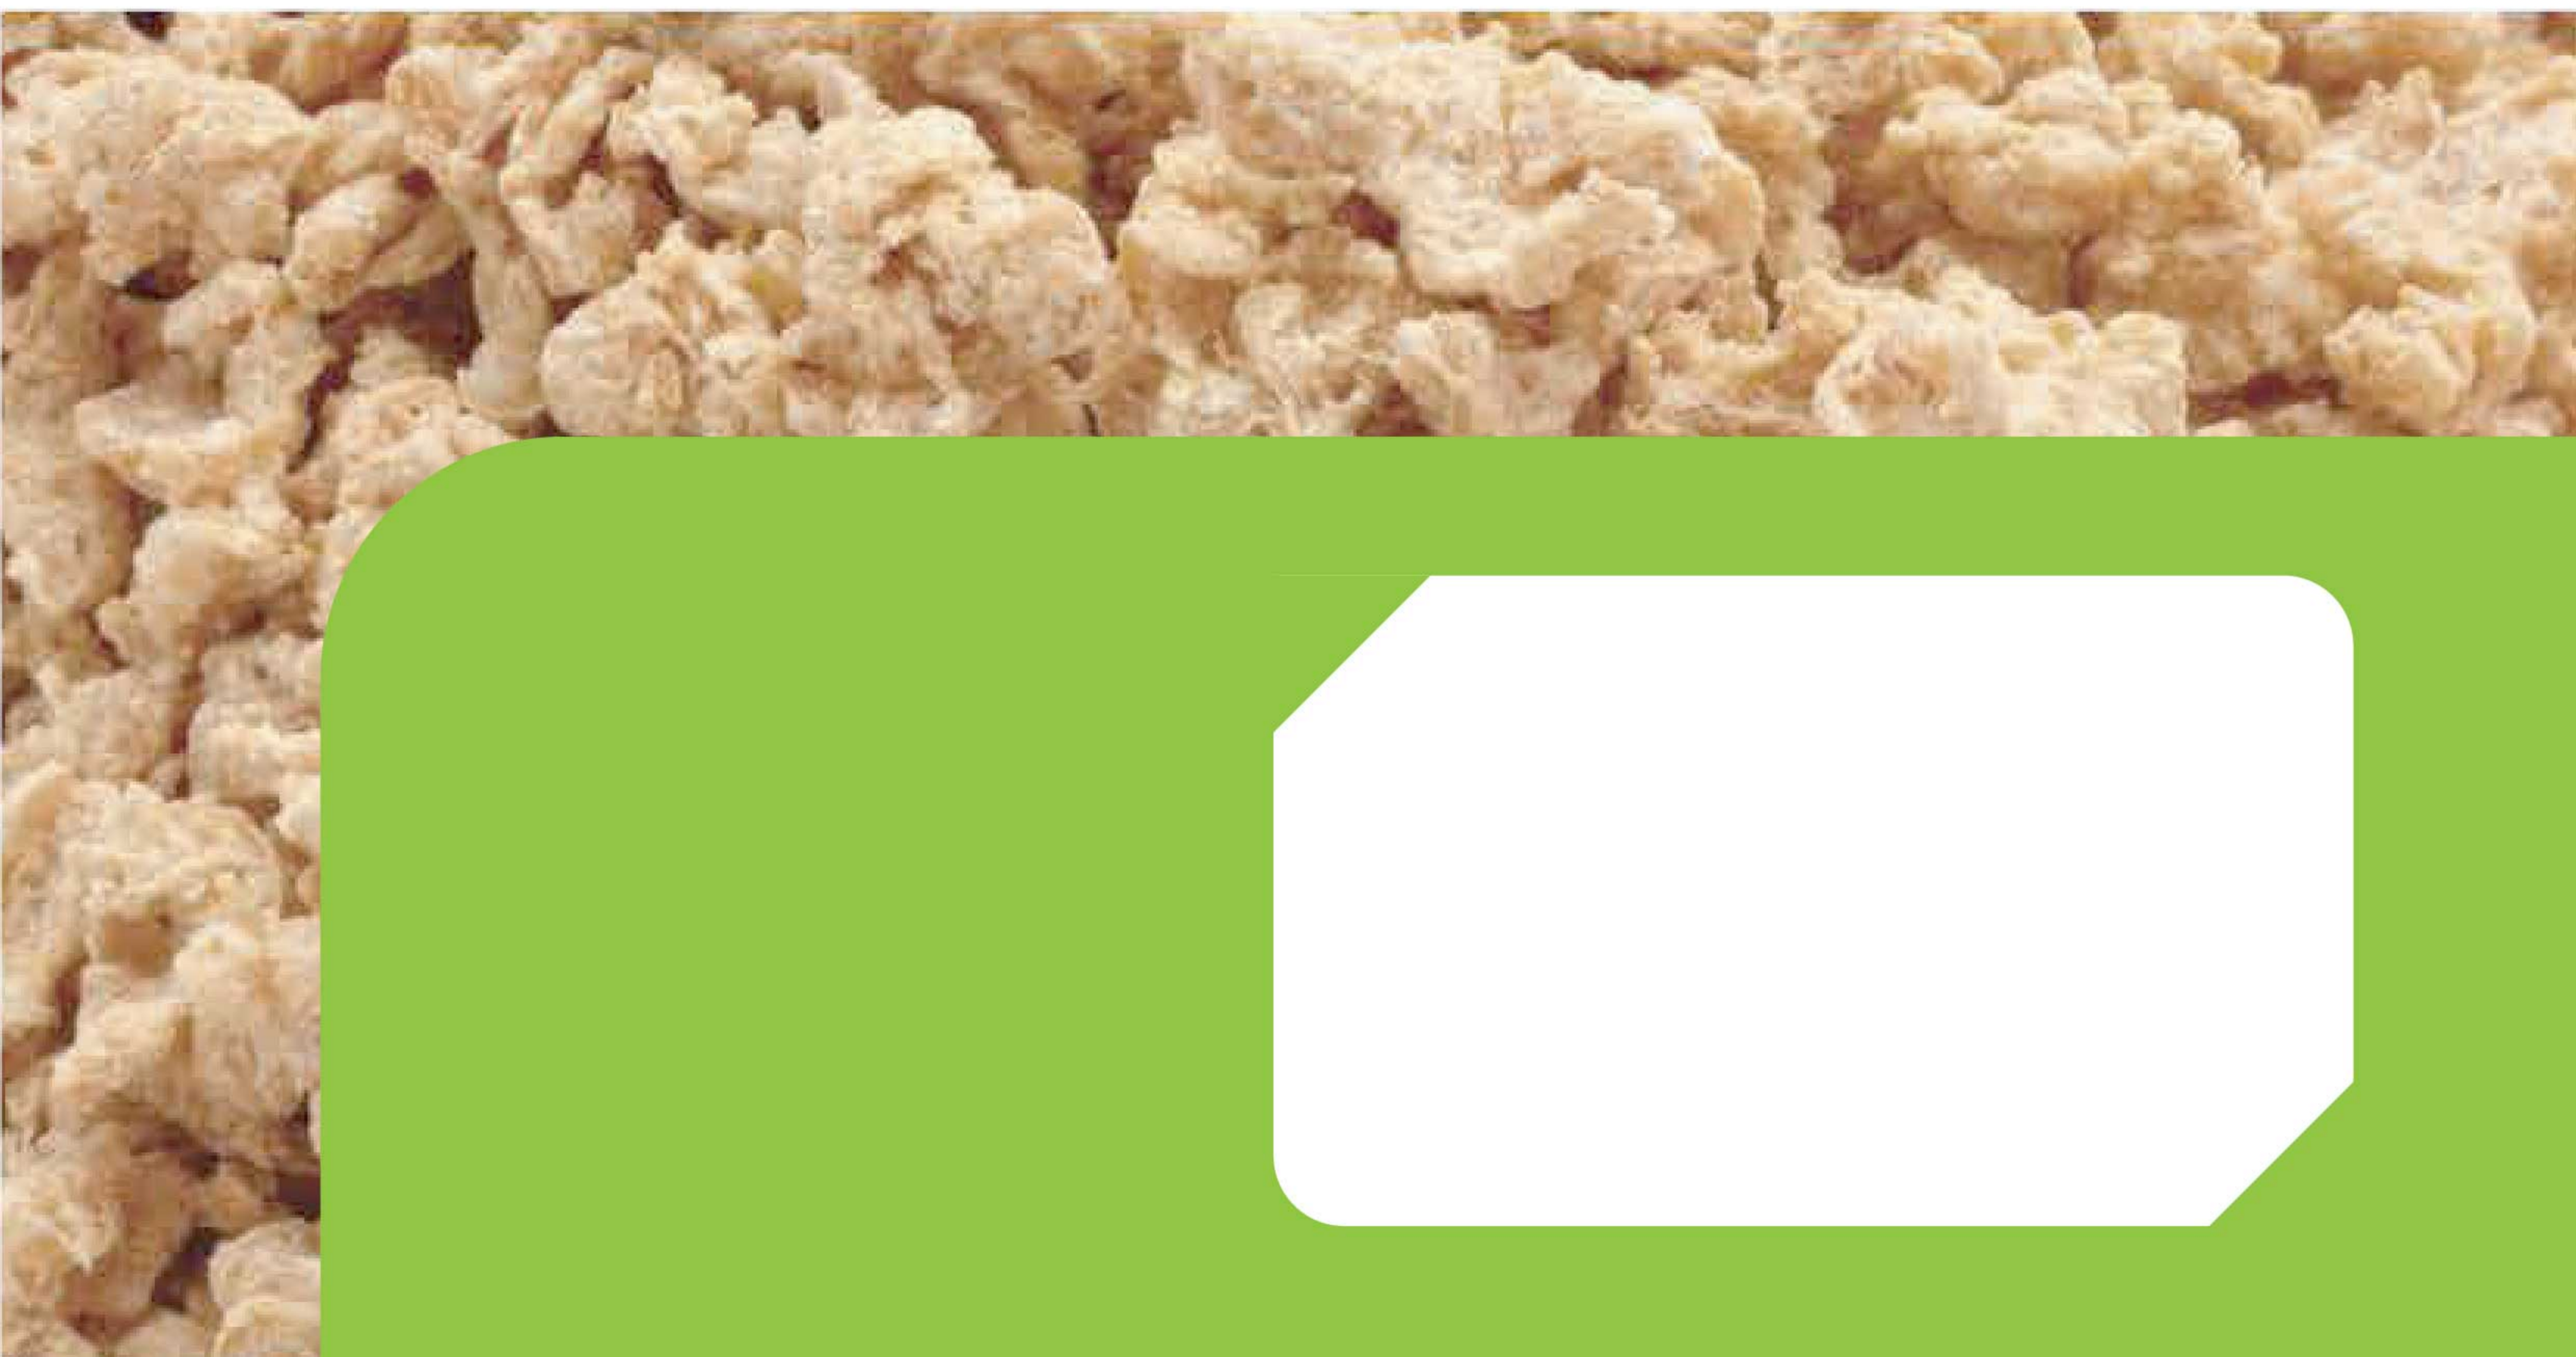

With a state-of-the-art system, innovative technology from Simondryers (England), and continuous research, our team of professional engineers consistently delivers high-quality products with balanced nutrition and safety. The health and well-being of society remain our top priority.

Products of PFT come from these core values:

- Collaboration with Customers and Partners
- Focus on Health and Nutrition
- Ongoing Research and Development
- Cutting-Edge Technologies
- Skilled Human Resources Comprehensive Training Programs
- Commitment to Safety and Hygiene
- Environmental Protection Initiatives
